KALAMAZOO, MICH, June 9.-Kalama Normal Broom Brigade.

The broom drill was a very novel and protty feature. The company consisted of eighteen young ladies neatly attired in a white and red uniform. They were commanded by Prof. Armstrong, who appeared in his old State University uniform, and put his fair squad through the tactics with the same precision that he used to his company of 'Varsity boys on the Morgantown campus.

MORE PAUPERS

A PLEARANT REUNION.

After the Alumni performance last night the graduates of the class of '77 celebrated their tenth anniversary with a banquet at the Liberty House, at which about twenty-five guests were entertained. The graduates were Rev. L. W. Barr, pastor of the Third Preabyterian Church of this city; T. S. Riley, Esq., of the firm of Ewing, Melvin & Riley, Of this city; Mrs. Harry Glass (nee Emma F. Bell), of West Liberty, and Mrs. Mary. E. Mangold (nee Burrows), of New Martinsville. They were all present, and entertained their guests charmingly. As they sat at the least of good things, the events of their school days and West Liberty normal matters generally were discussed with rare enjoyment.

That ended the list of events, and after its annual day of life and bustle the town once more became a pesceful little village.

to-day, the question of permitting the landing of about ninety emigrants from Ireland who were on the steamer City of Chester came up. The emigrants had been sont there by the British government, which paid their passages. Their admission was objected to on the ground that they were paupers and likely to become public charges. There was read at the meeting a copy of the letter to Secretary Bayard by Minister West. In it the British Government asked whether persons whose passages were paid partly or wholly by the British Government wend be permitted to land. Secretary Bayard in reply cited the laws in reference to pauper emigrants, and said that such cases as those mentioned by Minister West suspicion would be excited, and they would not be permitted to land unless it was clearly is shown that they were not likely to become public charges.

On Sunday, June 5, the baccalaureate sermon was delivered by the Rev. J. H. Fitzwater, for Arcanum, O., an alumnus of the school, and now a prominent minister of the Onio conference of the M. E. church. The addresses before the literary societies were delivered by Thomas H. B. Stagers, Esq., of this place, and Prof. W. F. Willey, of Morgantown. Both were spoken of very highly, and as considerably above the average production for such occasions. Both gentlemen had the closest attention of large audiences.

The society anniversaries exhibited careful preparation on the part of each performer, the debates particularly showing much thought and investigation. A notable feature at each entertainment is the profusion of flowers showered upon the participants.

About one bundred and fifty of our people went to Morgantown this week at various times to attend the University commencement. Samuel McVicker, who lived about six miles up the river from Grafton, in the neighborhood of Henderson's mill, was drowned last Sunday evening while swimming the river. He swam the river but could not get his dog to follow him and so he went back after him and attempted to take him across by force, but the brute got away in the water and returned to shore. Again McVicker swam back and essayed once more to cross the river with his hold on the dog, but the latter resisted until in the struggle the young man was seized with cramps and sank to rise no more.
